No one in our office called you. You must have made an appointment with Attleboro Women's Health which is a crisis pregnancy center next door. We don't see patients on Thursday morning. What number called you?

The only other place where I provided my contact information was on a website
carafem.com

Patient, [REDACTED] Jane Doe 5 [REDACTED]

That website provides abortion medicine via an online provider, perhaps they have
a way of retrieving that information

Ok. I appreciate all the info. That site should also be secure.
